

**Kaynia, Amir M****Born:** 12. May 1954**Nationality:** Norwegian (born Iranian)

- Position:** Technical Expert, and discipline manager for Earthquake Engineering, Geomechanics Division, Norwegian Geotechnical Institute (NGI)
- Education:**
- |       |      |   |
|-------|------|---|
| B.Sc. | 1977 | Civil Engineering, Tehran University, Iran                          |
| M.Sc. | 1979 | Civil Engineering, Massachusetts Institute of Technology (MIT), USA |
| Ph.D. | 1982 | Civil Engineering, Massachusetts Institute of Technology (MIT), USA |
- Experience:**
- |              |  |
|--------------|--|
| 1999-present | Technical Expert and Discipline Manager for Earthquake Engineering, Geomechanics Division, Norwegian Geotechnical Institute (NGI), P.O.Box 3930, Ullevaal Stadion, N-0806 Oslo, Norway |
| 1993–1999    | Senior Engineer, NGI, Oslo   |
| 1988–1993    | Isfahan University of Technology and Sharif University of Technology (Tehran), Tenured Associate Professor of Civil Engineering  |
- Expertise:** Geotechnical earthquake engineering, soil structure interaction, numerical and code development in soil dynamics, pile foundation, natural hazards (landslides, earthquakes)
- Relevant Publications:**
- Prasad, J.S.R., Singh, Y., Kaynia, A.M. and Lindholm, C. (2006). Seismic risk assessment of Dehradun City using MSK and Psi Intensity scales. *Proc. 13<sup>th</sup> Symp. Earthquake Engng.*, Indian Institute of Technology, Roorkee, Dec. 18-20, 2006.
